RE: Revised Territories – North Carolina Commercial Automobile Policies

We have been notified by the North Carolina Reinsurance Facility (NCRF) that the Commissioner of Insurance in North Carolina has approved revisions to the Commercial Automobile territory definitions to adopt zip code rating. NCRF member companies were notified of the Commercial Automobile territory definition changes in a circular from the NCRF on June 3, 2021.

These changes are effective on all new and renewal Commercial Automobile policies effective on or after October 1, 2022.

The attached pages set forth the changes as they will appear in the 4th Quarter 2022 revisions to the NISS Automobile Volume II Statistical Plan.

Please let us know if you have any questions.

Very truly yours,

A handwritten signature in black ink that reads "Theresa A. Szwast".

TERRITORY CODES

Territories named herein are those adopted by NISS as outlined by the state of North Carolina. They are precisely defined in terms of contiguous ZIP codes. These NISS Territory Codes are to be used in reporting your Territory Experience.

A territory is a geographical area defined in terms of U.S. Postal Service (USPS) ZIP codes, as shown on the Territory definition pages.

Determine the applicable territory based on the ZIP code of the location of principal garaging of the vehicle. If the ZIP code of the mailing address differs from the ZIP code of the location of principal garaging, use the ZIP code of the garaging location to assign the territory.

Use **Territory Code 050 for automobiles rated** on the basis of rates outside of the state of principal garaging.
